Nominee’s Name: ______________________

Please describe how the nursing team has contributed directly to supporting the organization’s nursing strategic plan.

Criteria for team award consideration:

- Nurse-led team of 4 or more, which may include inter-professional members.

- Team Projects should be evidence-based and focused on one of the organization’s nursing strategic priorities.

- The project needs to demonstrate innovation addressing one of the strategic priorities of the organization, resulting in a collaboration of the team that leads to positive patient, family, and/or community outcomes.

- Documented project outcomes (3 data points encouraged).

Nursing Strategic Plan Areas of Focus

- **Patient Experience:** Give each patient/staff member a positive and memorable experience. Provide an example of a project that fosters and/or improves patient and/or staff experiences.
Clinical Excellence: Provide high-quality and safe care for every patient, every time. Provide examples of team projects focused on improving patient care and safety (for example: CAUTI, CLABSI, HAPU, Falls, Mobility)

Performance Excellence: Be accountable to each other and those who depend on us. This includes team projects that: support accountability, foster collaboration at the unit level and beyond, develop and expand nursing leadership, and/or improve efficiency.

Growth: Provide and coordinate more care for more people both locally and regionally. This includes team projects that address community needs, encompassing volunteer work and teaching that support the health of our community
