The safety and well-being of our patients and community members continues to be our highest priority. UCSD continues to actively monitor and adapt to the growing number of COVID-19 cases in our communities.

**In an effort to consolidate resources we have temporarily closed our La Jolla clinic and have moved our physicians and staff to our Kearny Mesa clinic.**

**Please call (858) 496-4800 to schedule an appointment.**

**Appointments:**

- If you are experiencing symptoms of COVID-19 and may have had contact with a person with COVID-19, please call our office. It's important to call us before you come in. Calling ahead helps us to schedule appropriately, protect your children, other patients, their families, and employees.
- We are offering well visit appointments in the mornings and reserving sick child appointments to the afternoon only.
- We now have separate waiting areas for well and sick patients.
- We have continued to enhance our cleaning processes.
- All patients and guests are being screened for risk at the time of making an appointment and again upon arrival at our office.
- The use of face coverings among the general public is now advised and we are requiring patients and families to come to our offices with cloth and non-medical face coverings (i.e. bandanas, scarves, etc.). For children 2 years and younger, alternative coverings such as a blanket over the carrier or stroller are recommended.

**Video Visits:**

Video visits are now available for many mild medical problems; please call our office to schedule a video visit.

**Testing:**

While we are not able to conduct testing at our offices, we have some limited capacity to be able to collect samples that can then be sent to an outside laboratory for COVID-19 evaluation. Please note that this capacity is based on having adequate testing supplies and patients meeting criteria for testing.

For more information about COVID-19, please visit [https://health.ucsd.edu/coronavirus](https://health.ucsd.edu/coronavirus).
